

**ODIHR Election Observation Mission
Republic of Moldova, Local Elections, 05 November 2023**

Media Monitoring Results

From 06 October to 03 November 2023, the ODIHR Election Observation Mission (EOM) monitored a sample of Moldovan broadcast and Internet-based media outlets. The standard quantitative as well as qualitative monitoring included the prime time (18:00 – 24:00) broadcasts on the public television (TV) station *Moldova 1*, as well as the commercial TV stations *Cinema 1*, *Jurnal TV*, *Orizont TV*, *PRO TV Chişinău* and *TV 8*, all of which have national coverage. In addition, the ODIHR EOM monitored the publications on the Internet-based media outlets kp.md, newsmaker.md, noi.md, point.md and zdg.md.

The quantitative monitoring measured the time and space allocated by media outlets to political actors affiliated with political parties. The qualitative monitoring assessed the tone of the coverage in which these subjects were portrayed – positive, neutral or negative.

The following charts display the coverage of several electoral contestants per media outlet. Only subjects that received more than 3.0 per cent of coverage are indicated.
